FIREMEN, BAND WIN $250 PRIZE; NOW HAVE $575

When the Gettysburg Fire Department and the Blue and Gray Band parade Wednesday night in Westminster, Md., they will be aiming for their fifth parade prize of the year.

The third and fourth prizes of the 1953 season were won Saturday at Lebanon. The band and fire department won first prize for the company, with music, traveling the greatest distance, an award of $125, and took third place, another $125, for the best appearing out-of-the-county-company with music, with at least 40 men in line.

The $250 won jointly with the band Saturday at Lebanon brings the "winnings" thus far this year to $575. Through an agreement with the band, prize money is divided equally between the two organizations.

The previous winnings include $210 at Quarryville, Lancaster County, and $115 at Taneytown.

Leave Here At 6:15

First prize at Westminster is $100. All firemen are requested to turn out for this event. Firemen will leave the fire engine house at 6:15 p.m. The parade is at 7 o'clock.

At Lebanon Saturday Victory Fire Co., York, won first prize for the best appearing unit with music, $200, and the Wyomissing firemen second prize of $150. Gettysburg was third and Valley View firemen fourth, $50.

The Gettysburg Fire Department has been represented in three other parades, in which it did not compete and did not send a marching unit, but had apparatus in the parade. These were at Hanover, New Windsor and at Irishtown, the latter also on Saturday.

MERCURY HITS 97 ON SUNDAY

Summer was officially ushered in on Sunday with another day of sweltering heat and humidity which broke a 30-year record for June 21. Not since the same date in 1923, when the mercury went to 101, has it been as hot as the 97 degrees recorded officially by The Gettysburg Times weather station.

Saturday was almost as hot, the temperature reaching a high of 96 degrees Saturday afternoon. The mercury dropped back to 65 degrees during the night but on Sunday night got no lower than 69, and at 8:30 o'clock this morning the thermometer registered 77 degrees, presaging another hot day.

Only twice since June 21, 1923, when the 101 mark was set, has the temperature approached Saturday's and Sunday's marks. In 1924 and again in 1933 a reading of 96 degrees was recorded on June 21.

Many Seek Relief

The Sunday heat drove thousands out of the cities in search of cooler spots in the mountains and highway traffic here was the heaviest it has been this year.

All of the resort areas in the mountains, Caledonia Park, Laurel Lake, Fuller Lake, and almost every available spot affording any shade and a trace of a breeze, was occupied by picnic parties. The "Narrows" was jammed with automobiles which lined the road for more than a mile.

For most parts of the country today was the fourth day of a June heat wave which broke records of many years' standing in many parts of the nation, and saw the mercury zoom as high as 107 degrees.

More Than 1,000 Persons At First Annual Horse Show In Gettysburg; 93 Horses Show

Ninety-three horses were entered in the first annual horse show held by the Gettysburg Riding Club Sunday afternoon under sponsorship of the local Rotary Club. Officials said the response far exceeded their expections. "We thought we were estimating too high when we announced a goal of 80 horses for the show," L. S. Long, show secretary, said.

More than 1,000 attended the show held at the Gettysburg Airport on the Mummasburg Rd. Not only did the event call for a greater participation by horses than expected, but those attending also found themselves attending an "auto show," autos of the vintage when nobody expected them to replace the horse. Six ancient cars, from the Brass Age Car Club, under leadership of Ernest Simpson, president, chugged around the show ring as part of the afternoon's events.

Express Appreciation

Secretary Long and General Chairman Dr. Bruce N. Wolff expressed their appreciation to "the hundreds of people who assisted in making this show a success." 3 CANDIDATES FILE ACCOUNTS, 4 DAYS OVERDUE

Three of the four candidates for county office who failed to file expense accounts with the county election board prior to the last day of such filing were present this morning at the Court House to turn over their expense accounts to the county election board. Thursday was the last day for filing.

Gilbert Lupp, Biglerville, Democratic candidate for sheriff, filed a report stating he spent "less than $150" in his campaign. John E. Millhimes, Straban Twp., who had sought the Republican nomination for sheriff, also spent "less than $150" according to his account.

Charles D. Baird, Straban Twp., also an unsuccessful Republican candidate for the nomination, reported $227.60 in his campaign.

Three Filed Today

Election Board Clerk Clarence C. Smith said the accounts were filed as of today. The candidates told election board officials that they had not known they had to file the accounts, or that they had forgotten that they had to be in within 30 days after the primary election.

Cyril F. "Cy" Weaver, Littlestown, Democratic candidate for Clerk of courts, had not filed up to 11 o'clock this morning.

The election code provides for a fine and/or imprisonment for failing to file within the 30-day period, and that those wilfully violating the election code provisions may never hold a public office of trust.

The election board, through its clerk, said it did not think anyone would prosecute.

FORMER PASTOR AT LITTLESTOWN RETIRES DEC. 31

The Rev. Irvin M. Lau, a former resident of East Berlin and graduate of Gettysburg College, 1908, and the Gettysburg Lutheran Theological Seminary, 1911, will retire on December 31 as assistant pastor of St. Paul's Lutheran Church, York. He has spent 27 of his 42 years in the ministry in York.

The Rev. Mr. Lau has served as assistant and the Rev. Dr. Chester S. Simonton as pastor, since the establishing of St. Paul's Church at its present location in 1942.

Following the merger of three Lutheran congregations in York, St. Luke's, Augsburg and St. Paul's in 1939, the present St. Paul's Church was erected. On the dedication date Feb. 15, 1942, both pastors were installed. The Rev. Mr. Lau had been pastor of the Augsburg congregation.

Had Littlestown Charge

The Rev. Mr. Lau will celebrate his 70th birthday late this year. In his youth he lived with his parents, at East Berlin R. D. and attended Trinity Lutheran Church in which he was confirmed by the late Dr. Richard Clare. Following his ordination on Oct. 11, 1911 he first served the St. John's Parish at Littlestown, where he served three churches from 1911 to 1921.

He served for three years as pastor with the pastor emeritus at St. Matthew's Lutheran at Catawissa near Bloomsburg, Pa. In 1924 he went to West Chester where he started a mission, now the Calvary Lutheran Church. While there he also served the Lutheran students at the West Chester Teachers College.

His first call in York was to the Augsburg Lutheran Church. He became pastor there on Oct. 1, 1926, and continued to serve the church until the merger of Augsburg, St. Luke's and St. Paul's, which became the present St. Paul's congregation.

The Rev. Mr. Lau from the time of the merger until the new St. Paul's was built served as acting pastor, and upon the church's completion, became the assistant pastor.

The Board of Deacons at St. Paul's has accepted the retiring assistant's resignation and have granted the Rev. Mr. Lau a sabbatical leave from Sept. 1, extending to the end of the year.

The Rev. Mr. Lau was married to the late Bernice Pauline Basehoar of Littlestown, October 28, 1912. They have two sons, Dr. Irvin M. Lau Jr., a dentist, at Pikesville, Md., and Glenn B. Lau, a member of the business staff of the WGAL Lancaster station.

Reds Have Difficult Time Quelling Disorders In East Berlin; May Oust Government

BERLIN (AP) — East Germany's desperate ruling Communists admitted today that strikes and violence still continue against their Kremlin - puppet regime and charged "foreign planes" have parachuted saboteurs into the Russian zone to keep the flames of rebellion burning.

A statement by the Socialist Unity (Communist) party's Central Committee said a "great number" of the parachutists had been captured, but admitted that in the sixth day of martial law carried on by Russian troops and armor, "quiet is not yet entirely secured."

As reports flew that the Russians were about to throw out the satellite East German government of Prime Minister Otto Grotewohl, the party declaration attested to the still-continuing strikes with frantic appeals to the 18 million captive East Germans to go back to work.

Throwing off restraint, the statement made clear the magnitude of the workers' rebellion—the most gigantic rebuff from a captive civilian population in the history of Moscow-directed communism.

The "enemy," the Communists said, incited "millions" of East Germans to take to the streets in wild disorder and "threatened the security and lives of workers of (East) German Democratic Republic."

The "Fascist agents," also planned to incite farmers to destroy their crops, the party said.

The Reds said the parachutists —agents of "American warmakers and their West German tools"— landed in Saxony and Thuringia after the revolt broke out last Wednesday. The Western Allies already have denied in the strongest terms that they had anything to do with the rebellion.

Clark Says He Can Sign An Armistice Without Korea's Approval; Reds Stall Truce

SEOUL (AP)—Gen. Mark Clark, U. N. commander, conferred today with President Syngman Rhee, then announced he can sign an armistice without South Korean approval, but he said doing so would "depend on instructions from my government."

"I am authorized at the present time to sign the armistice which has been drawn up," he told newsmen after what was apparently a showdown meeting with the rebellious Rhee.

"I am not trying to be overly optimistic. There are many problems. I feel somewhat more encouraged; more hopeful," he added

Clark said he could not reveal why he was encouraged.

What effect the talk might have on an armistice was not apparent.

Reds Block Truce

Although Clark indicated the truce document was virtually complete, he said there still are problems and added, "The truce timetable is more or less up to the Communists." He said a truce could be completed promptly "if the Reds desire it."

Clark's comments indicated the free-swinging South Korean government would check with the U. N. Command before taking any more such lone actions as its single-handed release of 27,000 anti-Red Korean prisoners since Wednesday night.

Rhee's action froze the armistice talks on the edge of signing and left the UNC a plump target for the Reds, who demanded recapture of the prisoners and U. N. control of South Korea if the Allies wanted an armistice.

Korea Stands Firm

South Korea showed no remorse or inclination to change its stand against any truce which would leave Korea divided despite a burning Allied anger. Its Prime Minister insisted just before the Clark-Rhee meeting that South Korea gave the Allies command of its troops and could just as easily take them off the battlefront.

However, Clark made it clear that he feels he is boss of all U. N. forces—including the 16 ROK divisions. He said there is no question that the ROK Army is "under my command."

ASK APPROVAL COUNTY HOME IMPROVEMENTS

The Adams County Commissioners are petitioning the County Court for approval of the amount of money to be expended by the Adams County Institution District "in substantial alteration of the west section and connecting unit between the west and east sections of the annex building of the alms house, commonly known as The Adams County Home, and for approval of leasing a portion of the real estate of the Adams County Institution District."

According to papers filed at the Court House by the law firm, of Keith, Bigham and Markley, the commissioners are asking approval of the renovations to the annex building at the county home, now substantially completed and scheduled to cost $52,459.24 for the contract and $3,147.55 for the services of Architect J. Alfred Hamme.

Change Rent Date

The papers also ask approval of a change of rental payment date on four acres and 43 perches of the county home land leased to The Times and News Publishing Co., on which WGET is constructed. The lease agreement, for a 20-year period, calls for payment of $427 per year, payable on the first day of May of each year. The petition to the court asks permission to make the rental payable on January 1.

Court approval of the renovation to the annex is asked because the renovation is a "substantial one," the petition points out, involving the rebuilding of the interior of the building.

A reception was held at the home of the bride immediately following the ceremony. Miss Mary K. Baughman and Miss Jane Oyler, both of Gettysburg, presided at the punch table. Afterwards the couple left on a honeymoon of unannounced destination. Mrs. Bushey wore as her going-away ensemble a two-piece silk and orlon navy dress with a white hat and navy accessories. Her corsage was of red and white rosebuds. Upon their return the couple will reside in Moline, Ill., where the groom is employed by Deere and Company.

The bride, who was graduated from Gettysburg College in 1952, has been employed in the Biology Department at the school since that time. She has been treasurer of the Gettysburg Engineering and Equipment Company, Inc., and is a member of the Chi Omega social sorority and of the Beta Sigma Phi Sorority.

The groom was graduated from the Virginia Polytechnic Institute, Blacksburg, Va., with honors in Architectural Engineering and received his commission in the Ordnance Corps of the United States Army Reserves. He is a member of the Phi Kapa Phi, honorary scholastic fraternity, and of Tau Sigma Delta, honorary architectural fraternity. He attended Gettysburg College for two years before entering VPI. At Gettysburg he was a member of the Tau Kappa Epsilon fraternity.

Out-of-town guests were from Harrisburg, Philadelphia, Reading, York, Waynesboro, Virginia, Illinois and Minnesota. The bridal party was escorted to and from the church in antique automobiles belonging to the Brass Age Car Club.

When Mount Katmai erupted in 1912, volcanic dust in the air dimmed the sun over the entire northern hemisphere for months afterwards.

Sixteen Adams County school districts will receive $17,685.45 from the state in tuition reimbursement for the school year ending in July 1952, County Superintendent of Schools J. Floyd Slaybaugh was notified today.

The districts and amounts they will receive include: Berwick, $224.70; Conewago Twp., $71.92; Fairfield, $1,228.58; Franklin, $942.33; Hamilton, $1,218.26; Hamiltonban, $2,079.52; Huntington, $1,769.65; Latimore, $1,076.78; Liberty, $1,201.92; Mt. Pleasant, $3,590.88; Oxford, $23.38; Reading, $64.66; Straban, $3,832.59; Tyrone, $121.41; York Springs, $113.32; Gettysburg, $125.55.

The tuition amounts are in payments for students from the various districts who attend schools other than the jointures or districts in which they reside.

In most instances the students are those who live on the borders of their districts and are closer to schools in other districts. In the case of Fairfield joint district, it would represent high school students who attend Gettysburg during the period while the high school there was building up to a full four year course, which it will have next September, and students in the mountain areas who reside closer to Washington Twp and Quincy high schools.

Out Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times

ONE HUNDRED YEARS AGO

Death of Wm. R. Sadler, Esq.: It is our painful duty to announce the death of Wm. R. Sadler, Esq., of Huntington township, on the evening of the 19th inst. His disease was dysentery. Mr. Sadler was an exemplary man in private life; and as a public man had the full confidence of the people for his sound judgments and prompt business habits and qualifications. He represented this district in the Senate of the State for three years with much credit to himself and acceptance to the people; and we have little doubt would have been, had he lived, the candidate of the Whigs for the same situation at the coming election.

Married: On Tuesday, by the Rev. Jacob Ziegler, Mr. Thomas Stephens, of Huntington township, to Miss Christiana M. Menges, of Middletown.

At Littlestown, on Thursday, by the Rev. T. F. Hallowell, Dr. Lewis Stonesifer to Miss Ann Elizabeth J., daughter of Mr. Henry Myers —both of New Chester.

• • •

Tuesday, (June 21) was the hottest day known here for many years. The mercury rose to 98°. The hot weather has been very general. At Chambersburg it was 100°.

• • •

New Passenger Arrangement: We understand that arrangements have been effected between Messrs. Tate & Co. and the officers of the Railroads terminating at Hanover by which hereafter, passengers from Philadelphia, Harrisburg and York, as well as Baltimore, will be carried through to Gettysburg the same day. This will be gratifying to our traveling public, as they will be able to leave Gettysburg, and return again, via Hanover and the railroads connecting there, thus saving considerable staging.

T. V. Roy, the converted Brahmin, whose criminal doings we have previously noticed, was convicted at Toronto, Canada, of bigamy, and sentenced to three months of imprisonment. A very light sentence.

Pedestrianism: Our young friend, Harry K. Kurtz, son of Mr. Wesley W. Kurtz, of Philadelphia, accompanied by two friends, reached Gettysburg on Thursday evening, having walked the whole distance from Philadelphia. The time made was remarkably good for amateurs.

They left Philadelphia on Monday morning at 5 o'clock. The first day they walked 35¾ miles. The total distance of 125¾ miles was made in 32 hours and 30 minutes. The young men did not take the shortest route here and were detained at one or two points by rain.

• • •

Corpus Christi: Thursday was the feast of **Corpus Christi,** which is almost universally observed by the Catholic church. Impressive services were held at Conowago Chapel in this county, accompanied by a solemn procession of the most Blessed Sacrament. The ground over which the procession marched was covered with new-mown grass, and the altars were surrounded with beautiful flowers.

ROADSIDE TABLE

Those roadside tables seem to say
(And with a smile):
"What's so important you can't stay
To rest awhile?

"What cares have you that you
can't drop
An hour or two?
'Twould do you good if you
would stop.
But no. Not you!

"You think you have to race along,
But can't tell why;
While here are beauty, peace and
song
That you rush by.

"Why don't you, only now and then,
Pull to the side
And take the rest for weary men
That we provide?"

Today's Talk

By GEORGE MATTHEW ADAMS

KEEP CURIOSITY ALIVE

We only grow old in the appointment of the years. They are only numbers. But if you keep curiosity alive you will constantly be living out your youth and supplementing it to your years.

There is a notion that efficiency ends in the middle years. This is all nonsense. If you choose to be efficient you can make it fit any age! Those three pints of grey matter that comprise the brain can be made to create wonders! But they have to be kept stirred up and fully alive.

The more knowledge we gain from endless sources the more alert we become, and the more anxious to excel in whatever we do. The human mind has no limits marked upon it. It has no boundaries. It reaches out to grasp every bit of interesting data that comes its way—if the door to the mind remains open! No one ever lived who could say he had exhausted the ability to grasp something new.

We ought to keep adventure alive within us, having a curiosity for learning anything searched for, or that comes our way. I have an idea that the brain dances in delight when it has a new thrill. I know this is true with myself, little as I know about this curious formation that my head encloses I only know that every day is a revelation.

Never should any of us cease to collect interests. I recently bought a new outboard motor for my boat. It is a wonderfully fine engine, intricately and skillfully constructed, but I know just how it is going to act when I put it into the water, for I have run it, time and again, for many a night before slumber.

I consider it a wonderful thing to do many things just for the fun they furnish! Doing things out of the ordinary always stimulates the mind and creates a greater interest in the regular work of our days. People run fastest on their toes! And get there quicher. Keep curiosity alive and you will wonder at your youth at ninety!

Tomorrow Mr. Adams will talk on the subject: "Neighbors All."

SPIES BURIED ON SUNDAY AS LAWYER TALKS

NEW YORK (AP) — Funeral services for Julius and Ethel Rosenberg erupted yesterday into tearful praise of the electrocuted atom spies and angry attacks on U. S. government officials.

Defense Atty. Emanuel Bloch declared in a funeral oration that the executions were "an act of cold, deliberate murder."

He said he placed "the murder of the Rosenbergs at the door of President Eisenhower, Atty. Gen. Brownell and J. Edgar Hoover."

Bloch praised the New York City couple—who died Friday night in the electric chair at Sing Sing Prison—for what he called their "courage and heroism."

Semi-orthodox Jewish services were held for the Rosenbergs at a Brooklyn funeral home chapel, largest in the Brooklyn-Manhattan area. About 500 mourners jammed the chapel, and a crowd estimated by police at 10,000 milled around outside in 93-degree heat.

Professor Presides

The chapel filled with hisses and murmurs of "No" when Rabbi Abraham Cronbach said, "Let us give them (the prosecutors) credit for this: that they did what they thought was right."

Cronbach, professor emeritus of the Hebrew Union College of Cincinnati, presided over the service. He was one of a delegation of four clergymen who urged President Eisenhower last week to commute the Rosenbergs' sentences to life imprisonment.

The rabbi told his protesting audience not to be vindictive, even though the executions "broke our hearts." He continued:

"We must demonstrate that we are among those most loyal to America. We must not permit any ground for accusations of remission in our American citizenship. We gain when America gains and we lose when America loses."

In his attack on government leaders, Bloch declared:

"The people should know that America is living under the heel of a military dictator garbed in civilian attire. These people . . . have the souls of murderers."

It is believed that at least three quarters of the white girl babies born in the United States this year will be alive on their 66th birthdays.

AUSTRALIAN IS TENNIS CHOICE

WIMBLEDON, England (AP) — Youth and brilliance vs. age and experience spell out the struggle starting today on the plush green courts of historic Wimbledon for the championships of the amateur tennis world.

Record books may well list 1953 as the first year of the Ken Rosewall rule.

The 18-year-old Australian with the frozen scowl and the magnificent all-around game already holds the French and Australian titles.

This, then, seems the last chance for the veterans—Jaroslav Drobny, the 32-year-old exiled Czech turned Egyptian who was twice a finalist but never a champion; Vic Seixas of Philadelphia, seeded No. 2 and approaching 30; and Gardnar Mulloy, America's top-ranking player but at 39 seeded only fifth.

Most oil wells being drilled in the United States today are from 5,000 to 12,000 feet in depth although some are much deeper.

Some meteorites contain as much as 90 per cent iron while others contain as little as 10 per cent.

Yankees Split With Detroit; Could Break All-Time Record Set By Chicago Cubs In 1906

By JACK HAND
AP Sportswriter

If the New York Yankees keep pouring it on, they'll break the 1906 Chicago Cubs' all-time record of winning 116 games. Unless something cracks they should be able to take a month vacation in September and bring up the Kansas City club to finish out the schedule.

After yesterday's split with Detroit, the Yanks were playing 46-14 ball for a .767 percentage. At the same rate they'll wind up at 118-36. High for the American League is the Yanks' 110 victories in 1927.

With an 11½-game lead at this stage of the race, the American League record of a 19½-game pennant-winning margin by the 1936 Yanks also is in danger. They might even threaten that fabulous 26½-game lead held by Pittsburgh's 1902 champs in the National.

Cleveland Loses

The Yanks took advantage of another lapse by Cleveland yesterday, dividing a double-header with Detroit as the Indians lost to Washington, 5-1. As a result, New York picked up another half game on the Tribe, now threatened from below by Chicago. New York won the first game, 6-3, for Whitey Ford on homers by mickey Mantle, Ford on homers by Mickey Mantle, Billy Martin and Yogi Berra but lost the second, 10-3, as Walt Dropo drove in four runs with a homer and two singles.

Chicago climbed within a game of Cleveland by breaking even with Philadelphia. The White Sox came back to cop the second 9-4, on homers by Fred Marsh, Ferris Fain and Minnie Minoso after Harry Byrd had shut them out with seven hits, 5-0, in the first game.

Defeat And Tie

The St. Louis Browns broke a six-game losing streak on Bobo Holloman's two-hit 2-0 winner over Boston in the second game after losing the opener, 3-1, on Skinny Brown's flashy three-hitter.

Milwaukee staged another of its comebacks to get a 6-6 tie with the New York Giants in a second game, called by darkness after eight innings. In the opener, Milwaukee suffered a 5-0 defeat when Ruben Gomez threw a two-hitter.

Because Brooklyn bowed to Chicago, 3-2, on a 10th-inning homer by Eddie Miksis, an ex-Dodger, the Milwaukee National League lead remained intact at 2½ games.

Only Philadelphia among the first division clubs gained on Milwaukee. St. Louis' five-game winning streak went up in smoke as Pittsburgh dumped the Cardinals, 5-2, and Philadelphia split a pair with Cincinnati, winning 5-2 and losing 5-3.

Tuesday's Game

Cubs vs. Yankees, 6:30 p.m.

Exploding for three runs in the fifth inning to break up a previous tight game, the Yankees won their eighth straight Little League game Saturday afternoon by upsetting the Giants 6-1. The Giants drew first blood in the first frame with a run but thereafter John McCleaf shutout his opponents on a five-hit pitching performance. Stoner collected three hits in as many times at bat for the Giants.

In the nightcap the Tigers came through with their first victory after six losses by blanking the Cubs 5-0 on a beautiful pitching performance by "Butterball" Townsend who made his first hurling appearance. Townsend missed a no-hit performance when Sprankle got credit for a bloop hit after Sydney Weikert, Tiger outfielder, slipped and fell in attempting a catch. Townsend fanned 10 and walked but one.

Rathman Beats 4 In 200-Mile Race

LANGHORNE, Pa. (AP) — Dick Rathman of Daytona Beach, Fla., beat out a quartet of North Carolina drivers yesterday to win the 200-mile American and foreign stock car race at the one-mile Langhorne Speedway.

Ray Duhigg, Toledo, O., was injured when his car flipped over several times and sideswiped another racer. Duhigg sustained an arm fracture and severe cuts. His car was demolished.

The MIG credited to Davis brought his score to 1½ MIGs downed and one damaged.

KNOCKS DOWN 99 OUT OF 100 TO WIN SKEET HONORS

HUNTINGDON, Pa. (AP) — Ben Jones, Eureka, Montgomery County, reigned as the Pennsylvania all-bore skeet champion today after knocking down 99 of 100 targets at nearby Shenecoy Field.

It was his first all-bore skeet championship in 12 years of competition. In winning the title yesterday to end the three-day skeet competition, Jones' only miss was on a low house bird fired from the No. 1 position.

Only one bird behind was D.W. Leid, of Ephrata, with 98 for 100. Some 64 shooters were entered in the series of shooting events that started Friday.

In the all-bore two-man team event, Jones teamed with Bill Boyce of Ambler to take the title with a 196 score out of 200 birds.

Mrs. Brenda Helmar of Pittsburgh won the women's all-bore crown for the fourth consecutive time with a score of 94 for 100.

Score 381 Points

Scoring the greatest number of points in the match was A. P. McCloskey of Lock Haven with a score of 381. He was also named all-around champion with a score of 476.

At the election of officers for the Pennsylvania Skeet Shooters Association, Jones was named president, while Bill Hollinger of Harrisburg was elected vice president. Mrs. Helmar was elected secretary.

The association voted to hold next year's shoot at the Blue Mountain Skeet and Trab Club, Harrisburg.

Other events and winners were:

Three-man team all-bore — McCloskey, O. M. Stanton, Troy, and Leid—293.

Five-man team all-bore—M. A. Heffler, Smithton; Boyce; Frank and Bill Hollinger, both of Harrisburg, and Jones.

Junior women's all-bore — Sally Leid, Ephrata—91.

Novice—Ralph Holtz, Patton—92.

SANTEE RUNS TWO FASTEST MILES, 16 DAYS

LINCOLN, Neb. (AP)—Wes Santee, a lean running machine from the plains of Kansas, now owns the two fastest miles ever run by an American—achieved in two consecutive starts in a span of 16 days—a remarkable feat.

Wes hung up a 4:02.4 in a night meet at Compton, Calif., June 5. That was the fastest an American had ever travelled the distance.

Then last Saturday evening he had a 4:03.7 in the NCAA meet here—the second fastest time.

His effort here will doubtless stand for many years as the NCAA record. The old mark was 4:03.3 by Lou Zamperini of Southern California in 1938.

Dwyer Beats Old Mark

Incidentally Fred Dwyer of Villanova, who finished second to the sailing Santee Saturday, ran a 4:07.1, also better than the old NCAA mark.

Also going to the AAU meet at Dayton is Southern California, the team that is losing its three Olympic games athletes, only to be branded by west coast representatives as a coming power again in 1954.

But even Southern California is going to miss Sim Iness, Parry O'Brien and Jack Davis. Iness and O'Brien were Olympic games winners in the discus and shot put, respectively. Davis was second in the 100-meter hurdles.

The "big three" spearheaded the Trojans to the national collegiate title here last Saturday night when Southern Cal rolled up 80 points to far out-distance Illinois, the big Ten champ which scored 41 points.

Iness threw the discus 190 feet, ⅜ inch to better the world mark; O'Brien topped the American shot put record at 58 feet, 7¼ inches and Davis won the low and high hurdles.

The last player to captain the New York Yankees was Lou Gehrig.

Legion, Moose In Big Tilt Tonight

Two winning streaks will be at stake tonight when the Lentz Legion and Moose tangle at 7 o'clock in a Softball League game.

The second-place Legionnaires have won four in a row while the Moose are undefeated in six contests.

In the second game of the evening the Elks and Texas Lunch will meet.

ALBANY SNARES DOUBLE HEADER; 2 ROOKIES HURL

By The Associated Press

Are the Albany Senators serving notice that they intend to wage a stretch drive in the Eastern League race?

Fine pitching by rookies Dave Sisler and Frank Sullivan yesterday helped the fifth-place Senators make it three in a row over Wilkes-Barre with 7-4 and 8-1 victories. On Saturday, Stan McWilliams turned in a five-hit job to give Albany a 3-1 victory over the Barons.

The three mound performances could indicate that manager Jack Burns has unraveled his pitching problem and last year's pennant winners may be tough from now in.

Elmira copped a doubleheader from Williamsport, 6-5 and 5-0, and Reading and Binghamton each split twin bills yesterday, so there was no change at the top of the standings. The Indians still hold a 1½-game lead.

Reading Divides

Schenectady took Reading in the first game 4-1 behind Johnny Meyer's seven-hit, 12-strikeout pitching. Jack Carmichael tossed a five-hit 3-

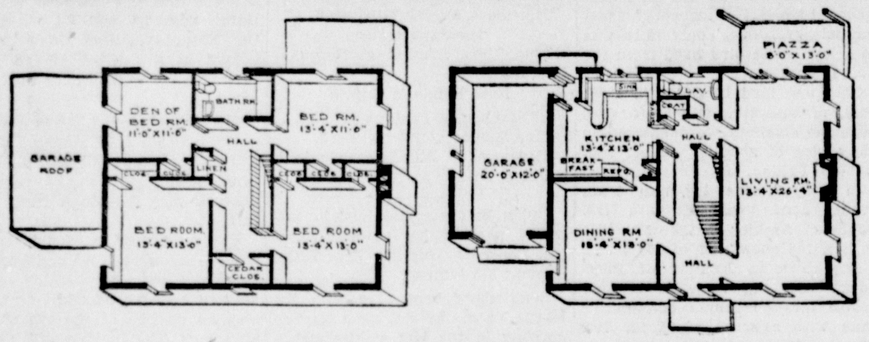
The Quincy: Handsome, Formal Design



Rooms	Seven
Bedrooms	Four
Closets	Nine
Cubage	28,000 ft.
Dimensions	37' x 28'

Bricks can be used for the exterior finish, as in the house selected for an illustration. Another very attractive exterior treatment would be to have a regular masonry finish and to cover it with white wash. The low pitched hip roof; the replica of an old-fashioned fan window over the front door, and the square bricks (imitating a small window) in the center of the second story—these are distinctive architectural features that help to give such a pleasing appearance to the exterior of "The Quincy."

Measuring 37' x 28', the house proper has a cubage of 28,000 feet; cubage of the attached garage is 2,600. While "The Quincy" can be built on any type of land, its architecture will be highlighted if it is situated on level or slightly sloping site.

Actually a part of the central hallway, the entry hall in "The Quincy" leads, on the right, to the living room; on the left it leads to the dining room and also connects with the kitchen and lavatory. Stairs lead to both the basement and to the second floor from this hallway.

Although the spacious living room has five windows and a French door, attractive furniture arrangement is really no problem because of the long unbroken left wall in the room. Depending upon the use to which it is to be put, the back piazza, which is reached by the door in the back living room hall, can be screened, glassed in or left open.

Four bedrooms and an all-modern bath are provided for on the second floor of "The Quincy." All of the bedrooms are of general size; each reaps the benefits of cross ventilation. There are two large closets in the master bedroom; the other three bedrooms each have one spacious closet.

The linen closet also is located on the second floor as is the family cedar closet. Placed between the two front bedrooms in "The Quincy," the cedar closet makes an ideal storage place for off-season clothing, blankets, etc.

Place the heating equipment under the living room in the full cement basement of "The Quincy," with the laundry under the kitchen or bath.

Blueprints Available

Complete plans and specifications for this house and all other "Home of the Week" designs are available at moderate cost.

Harvest Vegetables Young For Top Table Quality

Sow 7-Foot Row of Radishes Every Week and Eat Them Young and Crisp.

Amateur gardeners alone can enjoy the luxury of young vegetables. They cannot be found in the markets because buyers prefer big ones, and the young vegetables do not keep well.

By picking vegetables as soon as they are large enough to serve, which may mean when half grown, the amateur prolongs the harvest, and learns about delicious flavor which cannot be preserved.

Until it reaches full maturity the best place for any vegetable is growing in the garden rather than frozen, or in a refrigerator. But those that grow fast, especially, should be harvested before full maturity, because after that point they begin to deteriorate. Timing is the secret of enjoying quality from your own garden.

Pick radishes before they turn pithy. Carrots as large as your little finger make a dish long remembered. Beets just forming, cooked with their leaves, are delicious. If you pick snap beans before seed have begun to show in the pods, they are at the top of tenderness and flavor, and the bushes will keep bearing until insects or disease kills them.

While parsnips retain their quality even after the ground freezes, they are delicious when very young. All summer squash, including the zucchini, cocozelle and Turk's cap varieties, are at their best when oply a few days old; and if these young fruits are kept picked off, the plant will produce almost as much in weight as when fruits are allowed to reach full maturity.

There is a certain point when peas reach the height of their sweetness, and the gardener who has learned to know the signs, and harvests peas to be cooked within an hour, will feast upon a dish of rare perfection. Sweet corn has a similar peak of perfection, which gardeners learn to recognize. Both these vegetables begin to lose flavor within a few minutes after they are picked, due to their sugar changing to starch.

Leaf vegetables should not be allowed to grow old. Swiss chard, which will keep producing edible leaves all summer if the old ones are picked off, is commonly allowed to grow too large. Never let the leaves grow longer than 10 inches; when they grow larger, cut them off and throw away, to encourage tender new ones that replace them. New Zealand spinach, another all-summer green, makes huge bushes, but only the tips of the stems should be cut off for cooking. A few plants will supply the family, because new and tender tips will constantly be formed.

In contrast to all these, tomatoes should be allowed to stay on the home garden plants longer than they do on the commercial grower's, because they are picked for the market before they are ripe. The flavor of a vine ripened fruit is far superior.

Things Of The Soil

FINAL PLANTING DATES

Perhaps there have been few times in our nation's history when so much emphasis has been justified in crowding a well rounded succession of food crops into the home garden. And of course, the same reasons warrant similar stress on growing late vegetables for local marketing and sales at roadside stands. Therefore, expiration of final planting dates for 1953 is an exceptionally important matter.

Winter squashes, particularly the larger Hubbards, should be planted this week. Some of the smaller sorts, such as Table Queen (Acorn), Butternut, and Buttercup may be planted safely up until July 1, although an earlier date may prove wise.

Likewise pumpkins should be planted at once. Like winter squashes, pumpkins permit easy storage for all-winter use.

Rutabagas are usually considered jointly with turnips but require three to four weeks more time to mature. Most experienced gardeners sow rutabaga seed no later than June 25, and a few days earlier may be advisable to offset slowed growth that may later result from dry weather. Rutabagas may be easily buried in an outdoor pit for family use all winter.

Well rooted tomato plants should be set out this week for the important late crop to can and for making catup and other tomato dishes. Mulching liberally with fine vegetation will hasten growth by conserving soil moisture for more uniform distribution.

Broccoli seed should be sown this week in an outdoor bed for plants for the late crop. These plants should be set out no later than July 15 and side dressed later two or three times to hasten growth. A fertilizer with a high nitrogen content or nitrate of soda is advised.

The same advice offered for growing late broccoli applies to late Brussels sprouts. Vigorous plants should be set out around July 5 to 15.

Many gardeners in this latitude select July 1 as the latest advisable date to set out well rooted celery plants for the important winter crop. Experienced gardeners prefer June 20 to 24 as the latest safe date.

Gardeners who underlay their late cucumber hills or rows with well rotted manure should have promote sustained growth even through dry periods.

Kohlrabi seeds should be planted between now and July 10. Gardeners who have never grown this fine vegetable should try at least a few short rows. The roots may be stored easily over winter in an outdoor pit.

Sweet corn for the main late crop to can, dry and freeze should be planted between now and July 10. Again experience points in this latitude for a final date around June 25 to 30 as a safer time in order to gain insurance against an unseasonally early frost. Mulching late sweet corn heavily will increase yields, improve quality, and greatly hasten growth during dry periods. Two or three side dressings on the mulch with nitrate of soda will prove beneficial.

Plant pole Lima beans no later than this week, pole snap varieties in the next ten days, and bunch Limas before June 25.

Write the editor when in doubt about time and methods.

Heat Wave Strikes Nation And Leaves Death Toll Of 125 In Its Wake; Crops Face Drought

By The Associated Press

A heat wave, fourth day today with a death toll of at least 125, ushered in the official summer season over the week end.

It was attended by record June temperatures, sudden, violent and drenching storms, water shortages and threats of drought. Scarcely any section failed to feel the blows, one way or another.

It began Friday when spreading heat ran temperatures up to Ft. Smith, Ark.'s June record of 105, Laredo, Tex.'s 107 and Ashaldn, Neb.'s 108 peak. Storms generated by the day's stifling heat and humidity wreaked minor tornado damage in Nebraska and wind damage in Iowa.

107 In Arkansas

Saturday was worse. Chicago had its hottest June day on record —104.2. A 60-year record was set at Albany, N. Y., and Louisville, Ky. There was a 107-degree temperature in Arkansas, 105 at Oklahoma City, 103 at St. Louis, 101 at Terre Haute, Ind.

The shifting edge of the hot air blanket let cooling breezes into Illinois, Michigan, Wisconsin, Iowa and Indiana Sunday, but the East and South remained well covered at summer's official beginning at noon, and the Great Plains warmed up again.

Several Texas cities rationed water. So did some Chicago suburbs.

Three suburbs of Springfield, Illinois' capital, were completely without water. A Sprinfield official said their connecting mains were too small to handle the demand.

Lighting Kills Three

A drought threatened vegetable and tobacco crops in Connecticut. An agricultural agent said the situation would become critical in another week.

Lightning from a heat-generated storm killed three persons in New York City and injured seven others. A similar storm brought lightning deaths to two persons in Ohio.

At least 14 persons died of heat prostration and 103 were drowned seeking relief in pools, rivers and lakes. In Michigan a man die of a broken neck after a dive into the water. A woman was fatally injured in a motorboat collision at St. Louis.

AGREEMENT ON EUROPEAN ARMY BEING SOUGHT

WASHINGTON (AP) — President Eisenhower probably will have to decide this week whether he wants to put heavy financial pressure on America's allies to speed agreement on a West European army.

The House last week voted to withhold by law about a billion dollars in foreign aid funds until European Defense Community treaties are ratified. Yesterday, Sen. Taft (R-Ohio) suggested a compromise which would give the President discretionary authority to do the same thing.

Legislative leaders may find out at a White House conference Wednesday whether the President believes such a financial threat to West European nations would be wise.

The EDC treaties, ratified so far only by Western Germany, would call up 500,000 men from six nations for service in a unified army.

Exact Ratification

Livingston T. Merchant, assistant secretary of state, told the Senate Foreign Relations Committee in testimony on the foreign aid bill he believes "the logic of events" will bring ratification of the EDC treaties also by France, Italy, Belgium, The Netherlands and Luxembourg.

The testimony of Merchant and other officials, taken behind closed doors by the committee, was made public over the week end.

In it Gen. Omar N. Bradley, chairman of the Joint Chiefs of Staff, was disclosed to have told senators he believes Russia is "pulling back" in the cold war. Bradley said the Soviets fear increased U. S. military strength and need time to consolidate their position at home.

Bradley said the U. S. already is stockpiling equipment and supplies in West Germany for the arming of German divisions if they are ever created.

Clark Says

(Continued From Page One)

troops loyal, Clark replied with an emphatic "Yes."

He was asked if he would sign an armistice without advance approval by Rhee. He told newsmen the armistice is between the U.N. commander and the Red Chinese-North Korean command, and said:

"I am authorized at the present time to sign the armistice which has been drawn up."

Asked if Rhee would accept an armistice that doesn't unify North and South Korea, Clark smiled and answered:

"I hope so."

The U. N. commander said hypothetically . . . (a truce) could be obtained" even with South Korea opposing, but added:

"Whether it is violated or not is another thing."

"Friendly Talk"

Asked if such a truce would be useless, he answered:

"It would depend on the amount of co-operation (by South Korea)."

Clark described his talk with the fiery, 78-year-old South Korean President as "friendly and encouraging" and said both had agreed to use such a description.

The general said he did not outline any new U. S. policy and added that President Eisenhower's offer to negotiate a mutual security pact with South Korea after a truce had not been withdrawn.

He also said there was nothing to a report he was given authority by Washington to declare martial law in South Korea if he felt it necessary. Clark said he never had considered such an action and reminded newsmen South Korea is a sovereign state.

Ambassadors Confer

The Allied commander in chief brought with him from Tokyo former U. S. Ambassador to Japan Robert Murphy, now Clark's civilian diplomatic adviser on truce matters.

Murphy talked with U. S. Ambassador to Korea Ellis O. Briggs during the Clark-Rhee meeting.

Clark said he received a new letter from Rhee just before leaving Tokyo and that it covered many subjects, but he would not discuss it.

Only a short time earlier, South Korea's Acting Prime Minister, Pyun Yung Tai, told reporters his country had given his troops to the U.N. Command and could take them back if it desired.

Pyun said there would be no further mass releases of anti-Communist North Korean prisoners if the Allied command guaranteed that no Indian troops or Communist "brain washers" would enter South Korea.

Some Small Outbreaks

Under terms of the armistice that awaits signing at Panmunjom Indian troops would guard anti-Communist prisoners while in custody of a five-nation repatriation commission and Communist representatives would be permitted to give "explanations" about return to North Korea or Red China.

New, but small and scattered breakouts of anti-Communist Korean prisoners were reported from several U.N. camps.

They brought to 27,160 the number of escapees.

Nearly 100 antiCommunist Chinese prisoners escaped Monday from a special interrogation compound at Pusan, but were quickly rounded up by South Korean police. They were the first Chinese to break out and were easily spotted in their prisoner uniforms and because they spoke no Korean.

Important Visitor

Rhee will have an important visitor shortly—Assistant Secretary of State Walter Robertson, who was scheduled to leave Washington today by plane. It was presumed Secretary of State Dulles was sending a special message to Rhee that the U. S. is going ahead with truce arrangements on terms already worked out with the Reds.

And in Washington, it was reported that Switzerland, India and Sweden have assured the U. S. they are willing to serve on the repatriation commission. Poland and Czechoslovakia are the other two prospective members.

SAYS CAMBODIA READY TO FIGHT

BANGKOK (AP) — A Cambodian government spokesman said today, "Cambodians are ready to die for independence. This means an independence war but the King is first watching French movements and awaiting French initiative."

The spokesman, Krengnill, said young King Norodom Sihanouk authorized the statement.

The King returned to Cambodia Saturday from self-imposed exile in Thailand and became commander in chief of the independent Cambodian Army in response to the people's request, Krengnill said. The spokesman returned to Bangkok today.

Krengnill said the 31-year-old Norodom has received reports France has prepared three battalions of Africans at the capital city of Phnom Penh, and has distributed arms to French residents.

Krengnill stressed that if the King leads a war it would be a nationalist campaign rather than Communist.

He said the King left Bangkok Saturday because political refugee etiquette prevented independence activities which would embarrass Thailand's relations with France.

Spanish War Vets Open Convention

WILLIAMSPORT, Pa. (AP)—Some 500 veterans of the Spanish-American War were on hand today for the 49th annual convention of the Pennsylvania Department of the United Spanish War Veterans.

The vanguard of the group attended a memorial service here yesterday.

Frank A. French of Latrobe, department commander, said business sessions would be cleared up today and tomorrow with election of officers scheduled for Wednesday.

Nepal has 1,000 motor vehicles, all of which were taken apart and carried into the area on the backs of porters, although a road into the country is now being built.

DONALD DUCK

Syngman Rhee Is A Man Of Strong Will Who Struggles For An Independent Korea

By DON WHITEHEAD
(For James Marlow)

WASHINGTON (AP)—Tough and willful old Syngman Rhee has been striking matches and tossing them around in the world's powder keg, Korea.

Defiantly, he has slapped his friends because they are willing to stop the fighting and then seek unification of Korea through negotiations with the Reds, rather than at the point of a bayonet.

The major Allied powers want to sit at a conference table and decide the future of this little country so torn and ravaged by war—perhaps later to reach an agreement on all Asia. And Rhee is struggling against them with an all-or-nothing defiance that some regard as fanaticism.

You may damn this old man for his unyielding opposition to compromise with the Communists at a time when peace in Asia seems at stake. But for any understanding of what is happening, you must understand Rhee.

Is Strong-Willed

He is a strong-willed man as he has demonstrated—strong-willed perhaps to the point of recklessness. A united, independent Korea is a dream for which he has fought many, many years. And obviously in his thinking he is seeing this dream slip from his grasp.

When Rhee was a youth, Korea had a King. Even at 19, Rhee was active in politics. He became a force in an organization which was urging democratic reforms under the monarchy and elimination of Japanese influence in the government.

He was jailed, tortured and hounded, but he had a stubborn streak that would not bend. Then in 1910 the Japanese deposed Korea's King and seized his country. They forced Rhee into exile and he went to Hawaii. But he helped encourage an underground resistance in Korea.

Japs Punish Ringleaders

Delegates met secretly in Seoul to elect Rhee head of a provisional government. But the Japanese learned about it, broke up the meeting and punished the ringleaders.

In 1920, Rhee was in Shanghai helping to organize and direct guerrilla activity against the Japanese. Later he lived in Washington, always pleading the cause of an independent Korea.

After World War II, Rhee returned to a divided country to become president of the Republic of Korea. His desire for unity of his country was so fierce that American authorities feared he might use the South Korean Army to attack North Korea.

But it was the North Koreans who attacked. For a time, when the invaders were hurled back and retreating pell-mell, it appeared that Rhee had at last achieved victory. But the Chinese entered the war and the stalemate developed roughly along the 38th Parallel, still Korea's general dividing line.

People Oppose Division

More than two years ago, Rhee told an Associated Press writer his people would oppose bitterly any settlement leaving Korea divided. He argued nothing less than a campaign to drive the Reds all the way across the Yalu would be acceptable. He hasn't changed his view.

The real danger has been that Rhee would create situations where South Korean armed forces would be at gunpoints against their U. N. allies. Such a monstrous tragedy could very well imperil the freedom that has been saved for South Korea and Rhee by the allies he now defies.

Reach Agreement In Water Dispute

NEW YORK (AP)—New York City, Pennsylvania and New Jersey have reached a compromise agreement concerning the city's use of water from the Upper Delaware River Basin.

The formula was announced yesterday by Mayor Vincent R. Impellitteri and Irving V. A. Huie, president of the city board of water supply.

A key point in the compromise is the city's promise to maintain the flow of the Delaware at stated levels during dry summer and fall months. This would be done by opening the gates of city reservoirs and replacing river water stored during flush periods.

During the years - long dispute over Delaware water diversion, New Jersey and Pennsylvania have expressed fears that the city would not leave enough water in the lower river for expanding domestic and industrial needs.

When Mount Katmai blew off its top in 1912, the noise was heard 750 miles away from the Alaskan volcano.
